PROFESSIONAL SUMMARY

Frontend Developer and First Class Honours B.Sc (Hons) Computing graduate (University of Greenwich) with hands-on React.js experience delivering real-time energy and carbon-footprint monitoring dashboards for an international SaaS client (Evercomm, Singapore). Brings strong UI/UX craft across Figma wireframing, responsive design and Tailwind CSS.

WORK EXPERIENCE

Self-employed Dec 2023 - Jun 2025

Frontend Developer (Freelance, Part-time)

Remote

- Developed the frontend of the S2 Exchange currency exchange platform, enabling its customers to exchange currencies.
- Built and deployed the S2 Tech Training Center website frontend in TypeScript on Vercel (s2-tech-training-center-frontend.vercel.app).

Kumo Solutions Co.Ltd Mar 2023 - Jul 2023

Web Developer

Mandalay, Myanmar

- Delivered real-time energy monitoring and carbon footprint tracking dashboards across **50 sites** for Evercomm's (Singapore) NXOps platform, building them in React.js and Ant Design.
- Covered **five monitoring domains** - utility, chiller, water quality, air quality and vibration - by building and maintaining a dedicated dashboard view for each.
- Kept dashboard data available when real-time feeds were down by updating the underlying database records directly.
- Debugged and optimised frontend performance across the monitoring views, achieving fast render times and a seamless user experience.
- Designed responsive Figma wireframes for utility site setup and configuration workflows across desktop, tablet and mobile layouts.

S2 Tech Training Center Aug 2021 - Jan 2023

Senior Instructor

Yangon, Myanmar (Remote)

- Designed and delivered one-to-one Scratch programming lessons for **15 children** aged 7-14, turning programming concepts into engaging, accessible activities.
- Built young learners' confidence in presenting by teaching them how to create and present slide presentations.
- Taught basic computer knowledge to children aged 7-14, building their foundation in everyday technology.

Spiceworks Myanmar Co.Ltd Oct 2019 - Dec 2019

Web Developer (Internship)

Yankin, Yangon, Myanmar

- Took a web application from design to build, focusing on frontend design: created wireframes in Photoshop and developed responsive interfaces with PHP Laravel, CSS and JavaScript.
- Implemented scalable solutions in collaboration with cross-functional teams.

University of Technology (Yatanarpon Cyber City) Jan 2019 - Jan 2021

Frontend Developer (Part-time)

Mandalay, Myanmar (Hybrid)

- Developed frontend features for the university's website as a member of the UTYCC website development team over two years, alongside full-time studies.
- Built voting system UI designs for the university's project awards.
- Collaborated with the team to launch the university's first release of student results on the website, published for each year.

PROJECTS

SmartMom University Project

Helped working mothers (ages 25-42) balance work and parenting by building SmartMom, a web app for tracking children's growth, nutrition and development milestones with support from professional advisors.

Built the frontend in Next.js 15, React 19, Redux Toolkit and Tailwind CSS v4, delivering a responsive interface.

Delivered the MVP with secure JWT authentication and role-based access for parents and advisors, containerised with Docker and deployed on Vercel.

Next.js 15, React 19, Redux Toolkit, Tailwind CSS v4, Docker

EDUCATION

B.Sc (Hons) Computing University of Greenwich Jun 2025 - Apr 2026

First Class Honours

B.E (Information Science and Technology) University of Technology (Yatanarpon Cyber City) Dec 2014 - Feb 2021
